

eScreen and Pembroke Announce the Launch of Med-eScreen

Overland Park, KS. eScreen, Inc. and Pembroke Occupational Health completed a merger in early 2010, creating an expanded products and services offering for employers with national drug and alcohol testing programs.

Together, the unified companies are proud to announce the launch of **Med-eScreen**, formerly known as the onsite medical division of Pembroke Occupational Health. With over 25 years of experience in providing drug testing and onsite medical services, as well as industry-changing technology and program management software, Med-eScreen creates an all-inclusive solution to help employers minimize risk to onsite workforce health and safety.

Jim Moore, vice president of sales for Med-eScreen, leads the division with over 20 years of experience in the industry, and has personally managed onsite projects for several of the largest construction companies in the country.

Med-eScreen services include fully-equipped medical trailers with occupational health physicians and nurses, drug/alcohol screening, employee badging, training for supervisors on reasonable suspicion, breath alcohol testing and first aid/CPR, employee safety orientation, work fitness assessment, workers' compensation case management, background check screening and a nationwide network of off-site treatment facilities that support return-to-work and light duty programs. With a diverse selection of service options, Med-eScreen can create a customized model to meet specific program requirements for both onsite and nationally managed projects.

About eScreen, Inc.

Located in Overland Park, Kansas, eScreen was founded in 1998 as the pioneer manufacturer and marketer of employment screening technology and web-based applications for the hiring and maintaining of efficient workforces. eScreen set the new standard for drug testing program management and directly affected the evolution of employee drug screening, including introduction of the industry's only instrumented 15-minute negative urine drug screen, the first-to-market paperless chain of custody form, and integrated web-based result reporting.

Today, as the largest Third Party Administrators (TPA) in the country, eScreen processes millions of corporate data transactions each year and offers a centralized process to ensure program compliance for both federally regulated (DOT) and non-regulated hiring programs, including state-of-the-art physicals management and random drug testing compliance tools.

About Pembroke Occupational Health, Inc.

Founded in 1989, Pembroke is a leading provider of employment screening and risk management services for both DOT and Non-DOT clients. Pembroke helps companies manage their employment screening data by providing easy access to drug test results, background checks, driver qualification files and other related services. Using a proprietary online database system, Pembroke compiles the results of employment screenings in databases that companies can access and manage over the Internet. Pembroke's national client base covers a variety of industries and ranges from small privately owned companies to major multi-site corporations and Federal agencies.
