## **eScreen, Inc. Receives Outstanding Technological Innovation Award from the Drug and Alcohol Testing Industry Association (DATIA)**

**Overland Park, KS. — June 14, 2010 —** eScreen, Inc., a leading provider of [drug screening](#) and electronic hiring program solutions, announced today that it has received the Outstanding Technological Innovation Award from DATIA.

This award recognizes the company that has significantly contributed to the evolution of the drug and alcohol screening industry through advancements in technology, growth, innovation, creativity and hard work. Dr. David Martin, DATIA's Chairman-Elect presented the award to eScreen founder, Dr. Murray Lappe at the DATIA Annual Conference in Phoenix, Arizona on June 4, 2010.

"This company has truly revolutionized the way the drug testing industry is evolving and has set a standard that we all will be following in one way or another to save our clients time and money," commented Martin. "It is truly remarkable how eScreen has introduced a new way of electronically managing our business, and in many ways is leading the way to the future for our industry."

In addition to accepting DATIA's Outstanding Technological Innovation Award, Dr. Murray Lappe also received the award for Outstanding Entrepreneur. This was the first time in DATIA awards ceremony history that both awards were presented to the same person.

Dr. Murray Lappe said, "It is an honor for us to be recognized by the DATIA organization, peers, partners and colleagues. eScreen has fulfilled a vision that started more than a decade ago with the automation of drug testing point-of-care and has developed into an all-inclusive model that has not only transformed our industry, but has set the course for technology in workforce screening management. The entire eScreen team sincerely appreciates this amazing award."

### **About eScreen, Inc.**

Located in Overland Park, Kansas, eScreen was founded in 1998 as the pioneer manufacturer and marketer of employment screening technology and web-based applications for the hiring and maintaining of efficient workforces. eScreen set the new standard for drug testing program management and directly affected the evolution of employee drug screening, including introduction of the industry's only instrumented 15-minute negative urine drug screen, the first-to-market paperless chain of custody form, and integrated web-based result reporting.

Today, as the largest Third Party Administrator (TPA) in the country, eScreen processes millions of corporate data transactions each year and offers a centralized process to ensure program compliance for both federally regulated (DOT) and non-regulated hiring programs. To learn more about eScreen's integrated, electronic drug testing solution for simplified local and nationwide testing please visit: [www.escreen.com](http://www.escreen.com).
